

Faber Healthcare Solutions and Clean Bill Of Health have partnered with PCI Payment Solutions to offer you savings on your credit card processing fees and rates.

Understanding and negotiating fees and terms set by credit card processing companies can be troublesome. Faber Healthcare Solutions and Clean Bill of Health have selected PCI Payment as their preferred partner for merchant transactions, based on our ability to deliver excellent service and the best rates to their clients.

### Introducing "Cost Plus Pricing"!

With Cost Plus Pricing, PCI Payment's transaction cost is added to the interchange rate at which each card is processed. The cost plus pricing structure guarantees no transaction is overcharged and also ensures that debit cards are processed at a much lower cost.

**Rates as low as 1.05%!**

#### PCI Payment can provide you with the following advantages

- Free cost savings analysis shows a true cost savings vs. current processor
- Eliminates manual data entry reducing the risk of error, postage, paper & labor expenses
- No installation or upgrades to perform
- Recurring billing at no extra cost
- Real time fraud control - AVS, CVV and CVV2 included - no additional fee
- Customized online reporting, e-mail notifications and service announcements
- Works with all credit card types
- Fast responses and approvals
- Flexible automated payment scheduling
- Tracks and reports credit card expiration dates when used for recurring billing
- User management allows multiple users and logins with restrictions at all levels
- No need to change banks, deposits can be made to your current financial institution
- Toll-free 24/7 customer support

Mention you are a client of Faber Healthcare Solutions and/or Clean Bill of Health when you call to ensure you get their preferred vendor pricing!

"We recently switched our merchant credit card processing to PCI for FMS Financial Solutions, the medical debt recovery firm that I own and manage. As a physician entrepreneur, I can highly recommend PCI Payment Solutions for those who wish to increase operational efficiencies, improve the security of personal client information, and reduce your overhead costs."

Jeffrey N. Hausfeld, M.D., M.B.A.  
Managing Director, FMS Financial Solutions
